Coursework: Strategy for Driving Corporate Growth, Financial Management; Corporate Finance, Valuation in progress

HANYANG UNIVERSITY, *Bachelor of Arts in Policy Studies, Cum Laude* Seoul, Korea, February 2018

EXPERIENCE

LEDGER RIDGE PARTNERS (Investment research, institutional digital-asset strategy) Remote
Strategy Analyst (Summer Internship) Summer 2026

- Benchmarked the digital-asset competitive positioning of 33 U.S. banks with Claude Code, building a three-pillar framework that isolated a settlement gap common to every institution
- Synthesized 15+ primary sources into 6 recommendations adopted for Tier 1 client outreach, and reprioritized the Tier 2 pipeline around regulatory timing
- Pressure-tested a tokenized fund's case against competing products, flagging fee and portfolio errors in the team's working materials and advising that projected returns stay out of external ones

SOUTH GRAND GROUP (M&A deal origination and buy-side advisory for private equity buyers) Remote
M&A Fellow, Deal Origination Analyst (Summer Internship) Summer 2026

- Evaluated 25+ acquisition targets against four buy-side mandates, testing business model, revenue quality and ownership structure; disqualified more than half and passed 8 to the buyers for diligence
- Automated first-pass buy-box screening with Claude Code (about 3 hours to 30 minutes per screen) and built a 12-field intake framework reconciling four incompatible mandates
- Traced why every initial candidate fell below one client's $10M revenue floor, rebuilt the sourcing screen around the binding constraint, and surfaced the first qualifying target

KOREA COMMISSION FOR CORPORATE PARTNERSHIP (National commission rating Korea's conglomerates) Seoul, Korea
Strategic Partnerships Manager, Commission Operating Dept 2023-2025

- Convened quarterly forums with 100+ C-suite leaders and policymakers, restating each side's position in the other's terms to align opposed interests on one agenda without formal authority
- Advised 200+ conglomerates and 5,000+ SMEs on market-entry strategy, turning cost-benefit analysis into 10+ policy recommendations the commission adopted
- Redesigned a failing SME hiring program after 30+ company interviews showed subsidies reached employers, not graduates, scaling it to 246 placements across 14 firms, ~5x prior

Project Manager, Cooperation Fund Dept 2020-2023

- Directed a $2M+ annual development fund across 50+ rural communities with a two-person team, replacing demand-driven allocation with return-ranked capital allocation that cut review time 20%
- Selected 12 startups to relocate into a collapsed mining region with $27M+ in planned private investment, taking full ownership despite internal reluctance about the agency's direct involvement
- Designed a public-private initiative extending services to 1M+ residents, aligning government agencies and corporate partners on a single funding mechanism

HYUNDAI ROTEM (Rail and defense manufacturer, $2.4B sales in 2023) Uiwang, Korea
Analyst, Strategic Planning Team 2018-2020

- Developed the company's compliance strategy as the function was first introduced, drafting the CEO's company-wide compliance declaration and key messages to all employees
- Audited 10 business units for compliance breakdowns, then launched a centralized platform and onboarded ~500 partner companies, cutting document review time 40%
- Cut regulatory breaches 33% by rebuilding internal controls and automating audit trails, replacing scattered manual checks with one consolidated view of exposure across all 10 units
